Cheap!

Safety 23 Inspection Time

Are you ready to pull your pride and joy out of the garage and get it ready for our short cruising season? When you change the oil, check the tires, etc, don't forget the NSRA Safety 23 inspection. NSRA came up with a fantastic checklist of 23 items to make sure your street rod is safe on the streets and it's once again time to repeat an article that has appeared in the Sun Runner a few times.

1. The Horn - A very important piece of equipment. It's original purpose was to warn others that you have a problem, such as no brakes or you are about pull up on the sidewalk for some reason. Others have found the horn useful for getting the attention of the opposite sex so you can impress them with your fantastic ride.

Regardless of what you use a horn for, it needs to be electric and capable of scaring unsuspecting bystanders.

2. Speed Indicator - Also know as a Speed-O-Meter, it is very useful for knowing why a cop is following you. For example, you see a sign that reads 30 MPH. You see a cop with his lights on and your speed indicator reads 52 MPH. You now know that cop isn't excited about your street rod. He wants to give you a ticket for speeding.

NSRA Safety Inspector Paul Moll getting ready to inspect another street rod.

We recommend speed indicators that read at least 120 M.P.H. but 160, 180 or 200 are preferred. You may have a chance to out run the cop and you can not drive any faster than the reading on your speed indicator.

3. Rear View Mirror - You need one inside and one outside on the drivers side. This was you can see if there is a cop behind you.

4. Glass - Very important. Glass keeps the bugs off your teeth, helps keep your street rod dry on the inside, and is a neat place to display decals. When using glass on your street rod, use safety plate glass. It last longer and won't break as easy as normal glass.

NEXT MEETING

Pres Sez

by Jack Hill

Wow! We have started the year off right in February by winning *First Place* in the Non-Commercial Auto entry in the Fur Rondy Parade. Nat Gardner did an excellent job getting everything coordinated for this event. The "Rockin & Rollin" theme for the parade just seemed to fit our club to the tee.

Walter Hietalzi, our Cruise Director this year, and Bob Pillion, Assistant Cruise Director, with a little help from the cruise committee has got things pretty well planned for this year's Thursday cruises. Word is that the Corvette & VW Clubs will be cruising with us too.

If you did not attend the "Beach Party," also in February held at the Elks Club in Eagle River, you really missed out. The organizers of this event did a great job and deserve a big round of applause! The food was excellent and there was plenty of fried chicken. Bob Pillion excelled as the MC and hammed it up. It is fun to participate in winter events and beat the winter blues.

A Garage Scene has finally been planned. It is planned for April 19, 11 AM at Russell Oakeley's place, 3700 Mathews Drive (off of DeArmoun Road), Anchorage. This class will be on bondo and preparing a car for paint. A second Garage Scene on welding will be held sometime in May at a location TBA. As always, everyone is encouraged to participate in these informal and informative events.

Hope to see ya at the Alaska Custom Car & Cycle Show on April 25-27 at the Harry J. McDonald Memorial Center in Eagle River. Also we are always in need of volunteers to help work the club booth.

We'll need lots of participation for the car show to be held at Dimond Center on June 8 from Noon to 4 PM! We need 2 or 3 cars for inside and our goal is to fill the northwest corner of the parking lot (where the car lot use to be) by the railroad tracks and Dimond.

That said, "LET'S ALL HAVE FUN AND CRUZ!"

Want a list of all the members? A list with phone numbers, address, etc.? They are available to members only for non commercial purposes. Call Ray Elleven at 337-5860 or email him at carnut@gci.net. He can mail it to you or e-mail it in a PDF format.

QUOTE OF THE MONTH

"You know the world has gone crazy when the best rapper is a white guy, the best golfer is a black guy, the Swiss hold the America's Cup, France is accusing the US of arrogance, and Germany doesn't want to go to war."

Chris Rock

From the movie *Head of State*

News Worth Repeating

MSSRA GARAGE SCENE

Saturday April 19, 2003 at 11 AM

Applying Bondo

How's your bondo skills? Here's your chance to learn a little or if you already know, help a member learn. Our host, Russell Oakeley has kindly offered his car, a '48 Pontiac convertible as a learning car. Rumor has there may be a few hot dogs and hamburgers available since this will be at lunch time. Here's how to get there:

- Head south on New Seward Highway
- Turn off at the DeArmoun Road exit and go east (towards the mountains) up DeArmoun Road.
- When you see the "OLD HOG FARM" sign on the left side (approximately 1/2 mile from the Seward Hwy.), turn left onto Mathews Dr.,
- Go a short distance (about 1 block) and the road will curve to your right, the Oakeley's home is on the corner.

Spring Time in Spenard

We are all set to have a fun night the Fly By Night Club for the *Spring Time in Spenard* show. We bought tickets for 37 members and guest and have 10 parking spaces near the front door for cool cars. If there is enough demand, we'll do it again next year.

Want a club jacket?

We have three members signed up for four jackets. We need two more jackets to qualify for the \$10 discount. Call Ray Elleven at 337-5860 by April 30th if you want your name added to the list.

As reported last week, Jacket Junction, located near the University Center (562-0901), can embroil our logo on your favorite jacket or you can buy a jacket from them. Embroiling for one to five jackets cost \$60 each and six or more are \$50 each. Your name can be added on the front for only \$6.

The year 2003

- 100 Years of Ford Motor Company
- 100 Years of Harley Davidson
- 50 Years of Corvette

Hot Summer Nights

The Valley Cruzers have selected August 9th for this years Hot Summer Nights. This year's event will be at the at the State Fair Grounds in Palmer. As with years past, there will be a laid back car show during the evening and a band is planned for your entertainment pleasure.

For those who want a little competition, there will be a section for judged cars. There is a \$10 fee for the judged cars with proceeds going to a scholarship for Wasilla High School Auto Shop Class student. There will be a cruise later that night for those who want to join it.

Camping will available on the Fair Grounds for those from out of town and a pancake breakfast on Sunday Morning for all of the out of towners. Make your plans now for one GREAT event.

How old are your tires?

Tires are required by the U.S. Department of Transportation (DOT) to have a code imprinted on their side walls. The date designation starts with DOT. Before the year 2000, the last three digits of a DOT number represent the week (two digits) and the year (one digit) of production. So, the last three digits are 229, the tire produced in the 22nd week of 1999.

Tires made after January 1, 2000, have a four digit date code at the end of the number. The first pair of digits represents the week of production and the last two digits represent the last digits of the year of production. So, if 2200 are the last four numbers, the tire was manufactured in the 22nd week of 2000.

(Ripped off from Jerry Johnson's article *Street Sweeper* in the March 2003 edition of *Street Scene* who ripped it off from the Over the Hill Gang-Havasuu newsletter *Road Rash*.)

Christmas Party

The decision has been made. Our annual Christmas party has been booked for Saturday December 6th at Eddies Sports Bar on Old Seward Highway. Details will be available later in the year. Tickets will be available at the September meeting.

Ramblins

MSSRA friend Perry Cowles is the proud papa of a bouncing baby boy. Perry and his wife named him Camden Cowles. He is 10 pounds two ounces and 21 inches long. Mom and baby are fine. Perry said, "This is the coolest yet to come out of my shop!" CONGRATULATIONS to the Cowles! . . . Do you recognize this person in this picture? Yes, the picture was taken a lot of years ago and that is a Corvette he is leaning up against. Don know what year?

PERFORMANCE PROMOTIONS PRESENTS

ALASKA CUSTOM CAR & CYCLE SHOW

APRIL 25, 26, & 27

SHELBY COBRA WALKED OFF WITH LAST YEARS PEOPLE'S
CHOICE AWARD**

Safety 23 coninued

5. Lighting - One of the most useful speed accessories you can buy. Lighting makes cars go fast. Why else would some people call their car "Lighting?" You should also have two front headlights with high and low beam, two tail lights, brake lights and a license plate light so that cop can read your license plate if he can't catch you. Don't forget turn signal lights. This way the cop knows when you are going to turn.

6. Windshield Wiper - If it weren't for windshields, we wouldn't need windshield wipers. This special piece of equipment it used to remove water and streak your windshield.

7. Automatic Transmission Lockout - Wow! Whoever thought of this device was a genius. No more starting in gear and the car taking off!

8. Tires - You won't go far without them. Tires need to meet DOT specifications and have a minimum of 3/32 tread to be acceptable. That's about the size of Lincoln's head, on a penny that is. As you spin the rubber off the back tires, put them on the front. If the front and back tires are different sizes, put the old tires on your mother-in-law's car.

9. Steering - Rack and pinion is best but power will do. When hooked up and working, you don't want any excessive "PLAY" (2" radius max). Don't let steering linkage bind and make sure it is safety mounted.

10. Throttle Linkage - In order to slow down, return springs are useful, in fact, it's required. Make sure the linkage doesn't travel past center. If your street rod ain't going fast enough with a property adjusted throttle linkage, try moving the seat up a couple of inches.

11. Fuel System - You don't want this baby to leak. Any time you see a leak, fix it. Elmers Glue, putty, and chewing gum work well. Eastwood is working on color coordinated gum to match the color of your street rod just for this purpose. If you have an interior mounted tank, make sure the vent works. Clear plastic lines are a no no.

12. Exhaust System - Most of us prefer our exhaust to dump right from the headers, but the law won't let us do that. You gotta have pipes and mufflers. The pipes can stop anywhere between the rear edge of the front door and the back bumper. Turn the pipes so they turn away from the car. Exhaust systems sound best without any leaks.

13. Self-Aligning End Bearings - You will find these things under the front of the car. Look for fractures, sloppiness or binding.

14. Shock Absorbers - Most cars have at least one shock absorber per wheel. If traveling, don't let them go more than two inches and don't let them leak. Remember, you put springs on a car to make it bounce and shocks to keep it from bouncing.

15. Brakes - Brakes are good. I try to take one about every two hours and more often when the boss ain't around. If you have brakes on your street rod, there should be one for each wheel. Make sure they don't take any leaks, the pedal travel ain't too much, and they work.

16. Scrub Line - This is the highest point reached by short people washing cars. There is another scrub line under the car. Make sure there are no steering, suspension or chassis components below it. To find the under car scrub line, put your wheels on the car without tires. Anything touching the ground has got to go.

RECOMMEND EQUIPMENT

The first 16 items are mandatory for a safe street rod but to get the official *NSRA Safety 23* lapel pin, there are 7 more things you need to pass.

17. Windshield - Safety plate glass is good enough for the doors and back glass, but to get the Safety 23, the windshield needs to meet AS-1 specifications.

18. Shift Pattern - As street rodders age, the experts feel our memory will fade, therefore, they want us to post the shift pattern somewhere in the car. Most put it near the gear shift so we remember where to look for it.

19. Fuel Lines - Can't be just there as mentioned before, they should be safety mounted and routed. No short cuts!

20. Parking Brake - This a special brake used to keep the car from moving when you don't want it to move.

21. Self-Aligning Tie Rod End Bearings - When NSRA put the first 16 items on their inspection checklist, they forgot to add "Ball should have 1/8 inch space on each side of the ball if there is any misalignment. Rod ends should not have more than 10 degrees misalignment etc." So, they added number 21 on the recommended

22. Brake Lines - NSRA thought brake lines are just as important as fuel lines and those tie rod things that they repeated as recommended. So, be sure brake lines are safely mounted and routed.

23. Chassis Fasteners - If you are going to fasten your chassis, use self-locking nuts, lock washers, safety wire, or cotter pins.

continued page 7

NSRA REP SAYS

by Ed Park

Saturday May 10th from noon to 4 pm will be this year's NSRA Appreciation Day to be at B&C/Carquest in Eagle River. The event is open to all, so please come and enjoy. With luck the weather will be good. Sorry Tammy has left the state, but I am sure Jim and his crew will do just as well. The store has been expanded a lot since last year, with a lot more to offer all car needs.

Paul Moll, NSRA State Safety Inspector will be out of town. We will have copies of the safety inspection items for all who wish to see what is required and recommended by the NSRA to keep you and your loved one safe on the road. The Appreciation Day is a good time to hear and see what the National Street Rod Association is about. Midnight Sun Street Rod Association started shortly after NSRA did.

If you are a current member of NSRA you will receive an Appreciation Day pin donated by Walker Radiator. You can join at the event and still receive you pin.

Hope to see you there.

688-3430

ecjpark@aol.com

More Safety 23

There you have it. All of the 23 items needed to get your very own *Safety 23 Lapel Pin*. Next winter, after you chip the dog off the fire hydrant, don't complain about the cold. Get to work and have your street rod ready for inspection. Paul Moll, our very own NSRA State Safety Inspector, will be available to inspect street rods and other worthy automobiles at selected events this summer. Give him a call at 694-4825 is you have any questions on passing inspections.

DEEP THOUGHTS

I ask people why they have moose heads on their walls. They always say because it's such a beautiful animal. There you go. I think my mother-in-law is attractive, but I only have photographs of her.

Expensive Stuff

So, you think a gallon of gasoline is expensive? This is what it costs to buy a gallon other products.

- Diet Snapple: 16 oz for \$1.29 equals \$10.32 per gallon
- Lipton Ice Tea: 16 oz for \$1.19 equals \$9.52 per gallon
- Gatorade: 20 oz for \$1.59 equals \$10.17 per gallon
- Ocean Spray: 16 oz for \$1.25 equals \$10.00 per gallon
- Quart of milk: 16 oz for \$1.59 equals \$6.32 per gallon
- Vick's Nyquil : 6 oz for \$8.35 equals \$178.13 per gallon
- Pepto Bismol: 4 oz for \$3.85 equals \$123.20 per gallon
- Whiteout: 7 oz for \$1.39 equals \$254.17 per gallon
- Scope: 1.5 oz for \$0.99 equals \$84.84 per gallon
- Brake Fluid: 12 oz for \$3.15 equals \$33.60 per gallon
- And the REAL KICKER - Water: 9 oz for \$1.49 equals \$21.19 per gallon

So next time you're at the gas pump be glad your car doesn't run on Nyquil! But PLEASE don't tell the Federal government. They might try to make things "fair", "equal", and "just" by raising the price of gasoline!

Social Dance

A local street rod club was having a social dance. "You're supposed to wear something that matches your husband's hair," said Jennifer, one of the wives. "So I'm wearing black."

"Oh, my," said Dawson's wife as she thought about her bald husband. "I'd better not go!"

Swap Shop

Swap Shop ads are a service of the Sun Runner and the Midnight Sun Street Rod Association for it's members and other individuals who wish to advertise an item or vehicle for sale. Advertisements are printed on a space available basis. Contact Ray Elleven, Editor of the SUN RUNNER at the address located elseplace in this newsletter or call him at 337-5860. All phone numbers listed are area code 907 unless otherwise noted.

1946 Ford Pick Up - 50,000 miles, Runs, good body, asking 4,500. Call Troy Hodges at 250-7630. (7/03)

1954 Studebaker Hardtop – 327 Chevy, 700R transmission, Air, Power windows, all the good stuff. Asking 20,000. Call Mac262-9274. (6/03)

1960 Chevy Impala - Nomad 4 door wagon. Non-running project or parts. \$999.00/Trade, Also looking for 65 Chevelle parts. Stuart 441-5032. (6/03)

1966 Landau Thunderbird - Must sell while wife is out of town. Two door, in excellent running condition; perfect body, new paint with matching rear wheel fender skirts - classy car! Interior very good. Swing-away steering column. Asking price below value at \$7500. Call Jim Sumner 907-694-2080. (7/03)

1975 MG – Must sell do to Family Hardship. (Husband's too tall.) Runs right down the road. Fresh paint - sunshine yellow. Catches the attention of car lovers. Price reduced to \$7500.00. Call Jim's wife Sandi at 694-2080. (07/03)

PARTS - New front fenders for '79-'80 VW Rabbit \$50 each. Call Tim Brass at 376-3011 (4/03)

Parts - 1967-72 Chevy Pick Up/Blazer Parts. Many body, interior, & mechanical parts. Call Mike at 688-5554. (6/03)

Wanted – Complete big block Chevy with all brackets, pulleys, etc., to install in a 1972 2wd Chevy restorations projects. Call Mike at 688-5554. (6/03)

2003 Cruise Schedule

The MSSRA invites you to join us on our Thursday Nite Cruises.

- Meet at the Sears parking lot @ corner of Benson & Seward Highway starting at 6 PM and depart at 6:45 PM
- We promote use of regular/family cars, not just street rods, for members or guests currently without street rods or projects in the works.
- Objective is to have fun cruising the streets and roads of Alaska.
- *Please Note: Thursday Cruise Nite Schedule is subject to change! If only a few cars show or questionable weather, destination will be announced that night.*
- Questions, contact MSSRA Cruise Director Walter Hietalati at 243-0832 or Deputy Cruise Director Bob Pillion at 688-5887.
